

L-SLA Series

Slammer Access Doors

Doors are designed to provide security access with the strength and durability to withstand abusive and vandal-prone conditions prevalent in many institutions. Without sacrificing security, these doors allow maintenance personnel access to plumbing chases, shut-off valves and electrical apparatus located behind finished walls.

Door is fabricated from 10 gauge steel.

Frame is 3/16" x 2" x 2" angle steel, welded and with pre-punched mounting holes.

Latch is a detention type deadbolt lock with paracentric key, when requested.

Hinges are heavy duty and are welded to the door and frame.

Door can be provided with a high security, vandal resistant, detention type lock. Doors are manufactured with locks provided by others.

Finish is a white prime coat suitable for painting.
